Self-employed persons pay both the employer and employee portions of CPP and do not pay any EI.

You have to deduct CPP for your employee's earnings if that employee:

- is 18 years or older, but younger than 70
- is in pensionable employment during the year
- is not considered disable under CPP, and

If the employee is between the ages of 65 and 70 and is drawing CPP, the employee must file form CPT30 with both the employee and the employer to have the CPP contributions ceased.

There is no age limit for deducting EI.
